

Instructions for use & care

Please note some care tips for using this bamboo bowl.

Rinse and clean in the same way as fine porcelain. Do not put in the dishwasher.

Use a slightly moistened cloth for cleaning and avoid prolonged contact with moisture. Do not dry the bowl on a radiator! Never clean the bowl with aggressive, chemical agents or scouring cream.

Tip: Vinegar cleans and disinfects in a gentle and natural way.

If necessary, rub in with food-grade wood oils or a little commercial cooking oil.

Wipe well and leave to dry for several days to prevent regreasing.

The bamboo bowl must not be filled with moist or fatty food!

Improper use may result in small cracks in the bowl!
